## REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

In the amendment after final dated 1/14/2004 the applicants incorporated allowable subject matter of claim 10, which was indicated as allowable in the final office action dated 10/15/2003. Claims 10 contained following limitation, that at least part of the aggregate is transparent with surface coated with a pigment. New claim 22 contains limitations of claim 12 also previously indicated allowable, wherein claim 12 requires that the fine particle be either luminous material or fluorescent material.

The prior art of record as applied against present claims does not teach at least part of the aggregate be transparent having pigment deposited thereon. The prior art of record also does not teach fine particles that are either luminous or fluorescent. The updated search report and STIC search report did not provide any new findings or documents that would be applicable against present claims. In view of the above pending claims 1, 6-9, 12-22 are passed to issue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
